

Building Resilience with Neuroscience & the Havening Techniques®

November 16, 2021 | 8:00 am - 12:30 pm

"Havening Techniques® engages our inherent biological systems to permanently heal, strengthen and empower our minds and bodies."

-Ronald A. Ruden, M.D., Ph.D.

This experiential training will explain how stressful events impact brain functioning and explore new opportunities for healing and growth.

You will learn how to harness the power of neuroplasticity, along with the Havening Techniques, to create sustainable healing. You will be empowered to start identifying opportunities for self-healing and begin laying the foundation to develop your Resilient Brain.

This training will cover:

- The latest insights into the neuroscience of stress and resilience
- Fundamentals of the Havening Techniques
- Key areas for fast and effective intervention utilizing the Havening Techniques
- Self-havening techniques for personal healing as well as protection against encoding future stressors
- How to build resiliency for your brain health
- Techniques for empowered resource development and sustainable

DR. KATE TRUITT
*Certified Trainer of
Havening Techniques®*
